

CORPORATE SPONSORSHIP PROGRAM

The Blue Swallow Farm Foundation is a 501(c)3 non-profit organization dedicated to promoting inclusive, authentic experiences in the outdoors through teacher training programs and research to motivate students in STEM careers. This initiative aims to provide students with opportunities to explore potential career paths while learning about the preservation and utilization of the natural world.

Corporate and Foundation support enables us to provide training for educators on how to teach about the Earth's natural resources through outdoor experiences in their school yards. We support educators by creating high quality, open access lessons, providing science tools, mathematics equipment, and children's books, as well as sponsoring students to attend environmental youth summits. This year, the Foundation seeks to raise over \$200,000 from corporate and foundation partners to support educators as they work with their students in outdoor learning. We are profoundly grateful to companies that have made contributions to help us reach our goals.
